INDIANA UNIVERSITY
INDIANA INSTITUTE ON
DISABILITY AND COMMUNITY

A Little History

- Questions were designed with providers through statewide input
- 2002 - piloted the first web-based data collection system
- Designed to:
  - ✓ link to 317 plan
  - ✓ provide individual service recipient (vs program) data
  - ✓ Allow individual programs access to their data
  - ✓ Use for policy decisions and DD Commission
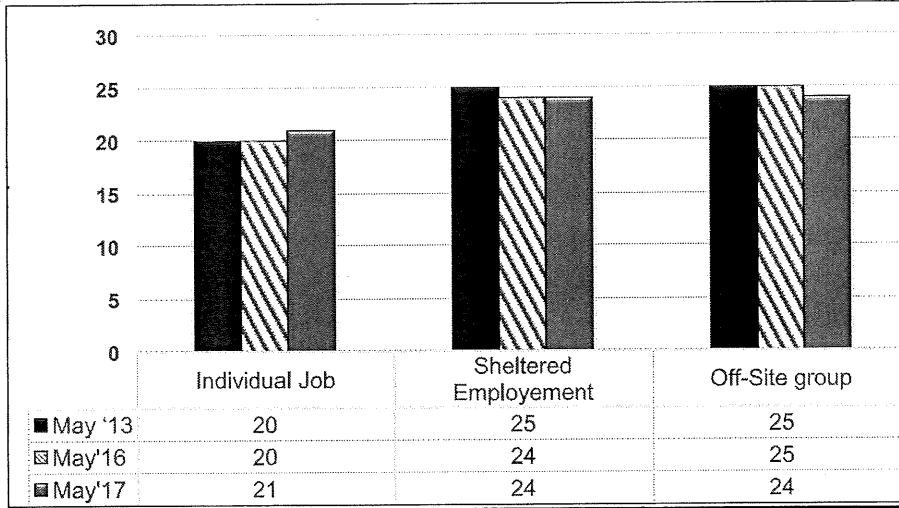

Highlights of 2017

- 13,317 Hoosiers with disabilities day and employment status reported by 63 programs (65%)
  - 3,643 (27%) were served through sheltered facility employment,
  - 143 (1%) through off-site group employment,
  - 3,830 (29%) through individual competitive jobs,
  - 9 (.06%) through self-employment,
  - 3,097 (23%) were reported as being involved in non-employment day programming, and
  - 2,595 (19%) through alternatives to employment (ATE).

5

Hours of Follow-along Support in Typical Month

Time Period	0	1-4	5-10	11-15	16>
2013	22%	40%	33%	2%	3%
2016	22%	41%	29%	2%	5%
2017	26%	39%	29%	2%	5%

What's Next

- Reprogramming data entry system to "error-proof" as much as possible followed by statewide training to share updates
- Developing dashboard for "live" data
- Analyzing data by age groups, county and regions
- Special analysis based on requests
